

Evolv Suite Integrated Loan Valuation & Accounting

Industry Challenges

Regulatory Pressure

Financial system reforms are driving increased regulatory pressure, requiring banks to increase transparency, attribution, and regulatory reporting.

Lack of Automation

Manual loan accounting and valuation processes are not scalable, controlled, auditable, or efficient.

Data Integration Requirements

Data integration challenges cause delays in accounting close process, inability to meet SEC reporting requirements, and increased risk of restatement.

Lack of Transparency

Lack of transparency into loan-level data limits analytical and decision making capabilities, such as attribution analysis, credit risk management, and loss estimation.

Lack of Integration

Inability to reconcile various analytical needs in a single integrated solution (servicing, accounting, tax, credit risk).

Gain visibility and speed
Total loan portfolio management

Our Solution

Primatics' Evolv Suite is the leading enterprise solution for loan accounting and credit risk. Whether you are preparing for a future acquisition or are already accounting for and forecasting loan performance, we provide more visibility into your loan portfolio. The Evolv Suite includes:

Loan Accounting solutions that meet GAAP accounting requirements for acquired and originated loans, including FAS141R, SOP 03-3, FAS91, FAS 65, FAS 114, REO, ALLL, FAS 5, and TDR accounting needs.

Loan Valuation solutions to enable cash flow and impairment estimation and analysis.

Credit Risk solutions to model a variety of economic scenarios, forecast expected gains and losses, and perform simulation and stress testing of the portfolio.

Data Integration to link the Evolv Suite directly with your servicing and reporting systems, to increase process efficiency and control.

Business Intelligence capabilities that provide dashboards and analytics, for attribution analysis, stress testing, regulatory reporting/disclosures, and management analysis.

About Primatics

Primatics is the industry leader in loan valuation and loan accounting solutions. The Evolv Suite allows financial institutions to meet GAAP loan accounting requirements, and increase transparency into their loan portfolios and impairments. Additionally, the Evolv Suite provides the ability to access loan level detail that can support multiple risk management processes such as valuation, stress testing and financial statement sensitivity analysis. Many of the largest banks have selected the Evolv Suite to increase efficiency, control, and transparency over their loan portfolios. Evolv modules process over \$400 billion in loans monthly to support our clients' financial reporting, management and attribution analysis processes.

Certifications & Recognition

Primatics has successfully completed the SAS 70 Type II Audit.

Primatics was featured in the 2011 September issue of Inc. 5000.

- Ranked #66 in Financial Services
- '07-'10 growth of 229%

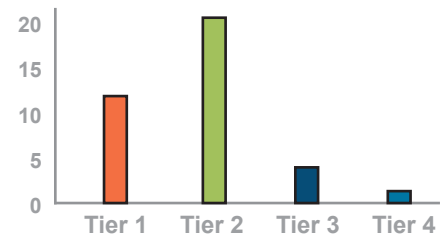

Primatics was ranked number 17 in the Washington Business Journal's 2010 Fast 50 list of the fastest growing companies in the Washington, D.C. area.

Primatics was named a recipient of Smart CEO Magazine's sixth-annual Future 50 award in 2010.
